Skills

Languages: Java, J2EE, JSP, HTML, CSS, JavaScript, SQL , Devops

Technologies & Tools: EC2, Kubernetes, Docker, Jenkins, Terraform, Git

Internships

National Skill Development Corporation, Kadapa

Mar 2023 – June 2023

Internship - Junior Software Developer

Palo Alto Cybersecurity, Kadapa

Sept 2023 - Nov 2023

Intern

Education

Government College For Men Kadapa

Sep 2020 – Jun 2023

BSc in Mathematics, Statistics and Computer Science

CGPA:7.47/10

TECH Junior College Tadipatri

June 2018 – March 2020

Mathematics, Physics and Chemistry

CGPA:6.28/10

ZP High School T. Koduru

June 2017 – March 2018

10th Class

CGPA:9.2/10

Project Work

Project Name: VeeraQtech

Role: Database Administration

Client: Besant Technologies

Project Type: Internship Internal Project

Summary: In this by using SQL, We have to generate reports on employee details, their performance on the project that the employees have undertaken and to analyse the employee database and extract specified data based on different requirements.

Project Title: Automated Web Application Deployment on Tomcat Server using Jenkins

- Implemented an automated deployment process for a web application on a Tomcat server using Jenkins and the Deploy Plugin.
- Configured Jenkins job to build and package the application as a WAR file and set up post-build action to deploy the WAR file to the Tomcat server.
- Reduced deployment time from 2 hours to 15 minutes, and implemented a consistent and error-free deployment process.
- Gained expertise in Jenkins, Tomcat, Deploy Plugin, and web application deployment process.

Certificates

- Introduction to Databases SQL at NXT Wave.
- Java Full-stack at Besant Technologies.
- Workshop participation in Ethical hacking mega mind workshop conducted by Nikistian Media Pvt Ltd.
